

CAREER ASSESSMENTS:

Page 1 of 1 • 5/1/2013

- **Basic Achievement Skills Inventory (BASI)** is used to measure math, reading, and language skills for children and adults.
- **Career Assessment Inventory** includes the Campbell Interest and Skill Survey (CISS) which measures self-reported vocational interests and skills. The CISS interest scales reflect an individual's attraction for specific occupational areas. Also includes Interest Determination, Exploration and Assessment System (IDEAS) which helps students and adults develop an awareness of possible career choices.
- **Career Assessment Inventory Vocational Version** is used for individuals who plan to enter careers immediately after high school or attend community college or trade school.
- **Millon College Counseling Inventory** is a comprehensive personality inventory that can help address concerns and get them back to a healthy state-of-mind.
- **16PF Fifth Edition** is an assessment of normal personality used in multiple settings
- **Student Styles Questionnaire**
